

Black Hills Reads helps to ensure children are proficient readers by the end of third grade.

Black Hills Reads brings together partners across many sectors to strengthen the systems that serve early learners and promote literacy opportunities for children under 9 in the Black Hills.

4 FACTS

about reading proficiency

1 Reading proficiency by 3rd grade is the most important predictor of high school graduation and career success.

2 Only 32% of 4th graders in South Dakota are reading proficiently. ¹

3 Children not reading on grade level by third grade are four times more likely to not graduate on time.

4 Kindergarten and 1st grade are the most chronically absent - missing nearly one month of school over the course of a year. ²
